### Patient's Health Insurance:

- ☐ **Medi-Cal** (Health Care Provider (HCP) **must** submit a Prior Authorization (PA) to Medi-Cal. Patient takes Rx to a Medi-Cal pharmacy.)
- ☐ **Private** (does not cover enteral products)

**Note to HCP:** If patient is covered by Medi-Cal, request PA at <https://medi-calrx.dhcs.ca.gov/provider/forms>. WIC only provides medically necessary formula/nutritionals when patients are **not** covered by Medi-Cal.

## SECTION II: Medical Formula/Nutritionals and Qualifying Diagnosis

**Formula/Medical Food Prescribed** (Check below or specify name if not listed):

|                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

### SECTION III: WIC Food Restrictions

(Check one): ☐ **No food restrictions** (all WIC foods allowed) ☐ **Food restrictions** (specified below)

#### Infants

(6–11 Months):

- ☐ No infant cereal ☐ No infant fruits/vegetables ☐ No infant foods, increased formula  
☐ No fruits/vegetables (fresh, frozen, canned) ☐ If premature: Provide infant foods after \_\_\_\_\_ months

#### Children

(1–5 Years):

- ☐ No milk ☐ No cheese ☐ No eggs ☐ No yogurt ☐ No plant-based milk alternatives  
☐ No tofu ☐ No peanut butter ☐ No beans ☐ No cereal ☐ No fruits/vegetables ☐ No juice  
☐ No whole grains (Specify type(s): \_\_\_\_\_)  
☐ No canned fish (light tuna, salmon, sardines) ☐ Needs purees; provide infant fruits/vegetables  
☐ No foods (formula only)

Comments:

### SECTION IV: Health Care Provider Information

Provider Name (Printed):

☐ MD ☐ DO ☐ NP ☐ PA

Dr. Taylor Morgan

Provider Signature:

Medical Office/Clinic Name and Address:

Example Pediatrics  
123 Test Avenue  
Sacramento, CA 95814

Date:

Phone Number:

#### Please Note:

**WIC will not approve medical formula or medical food for the following conditions:**

- Non-specific symptoms or diagnoses  
(e.g., colic, constipation, diarrhea, spitting up, picky eater, poor appetite, cramps, fussiness, gas, etc.)
- Solely to enhance nutrient intake or manage body weight without an underlying condition
- Non-specific formula intolerance or food intolerance
- Patient/caregiver preference or food dislikes

**For more information on WIC formulas:** Scan the QR code (right), visit [www.wicworks.ca.gov](http://www.wicworks.ca.gov), and click on *Health Care Providers*, or call 1-800-852-5770.
